WELCOME MESSAGE

Dear Distinguished Guests, Speakers, Healthcare Professionals, Industry Partners, and Delegates,

Welcome to the Digital Transformation in Primary Care Symposium 2026.

As primary care continues to evolve, healthcare providers are increasingly embracing digital solutions, innovative treatments, and modern practice strategies to enhance patient care and operational efficiency. This symposium serves as a platform for healthcare professionals, industry experts, and technology innovators to share insights, exchange ideas, and explore the future of primary healthcare.

Guided by this year's theme, *"Beyond digitalisation. Experience a connected healthcare ecosystem,"* the programme has been carefully curated to provide practical knowledge, emerging perspectives, and valuable networking opportunities.

We extend our sincere appreciation to our speakers, sponsors, exhibitors, and participants for their support and contribution to this event.

We hope you find the symposium informative, engaging, and beneficial to your professional practice.

Thank you and enjoy the symposium.

Sincerely,

Dr. Khairul Faizi Khalid
Managing Director
Remedi Innovations Sdn Bhd

ABOUT THE SYMPOSIUM

“Beyond Digitalisation. Experience a Connected Healthcare Ecosystem.”

The Digital Transformation in Primary Care Symposium 2026 serves as a platform for healthcare professionals to explore emerging trends, innovative technologies, and practical solutions that are shaping the future of primary healthcare.

The symposium brings together clinicians, clinic owners, healthcare administrators, industry experts, pharmaceutical partners, and digital health innovators to discuss how technology and innovation can enhance patient outcomes while improving operational efficiency.

The programme focuses on the integration of digital healthcare solutions, advancements in treatment strategies, clinic management transformation, and sustainable healthcare delivery models.

Participants will gain practical knowledge, valuable industry insights, and opportunities to engage with healthcare leaders and solution providers driving change across the healthcare ecosystem.

LEARNING OBJECTIVES

Upon completion of this symposium, participants will be able to:

- ✓ Understand current trends and opportunities driving digital transformation in primary care.
- ✓ Explore innovative technologies that enhance clinical and operational efficiency.
- ✓ Identify opportunities to improve patient engagement, continuity of care, and health outcomes.
- ✓ Evaluate emerging treatment approaches, healthcare innovations, and connected care solutions.
- ✓ Apply sustainable and future-ready strategies to support clinic growth and transformation.
- ✓ Strengthen collaboration across healthcare providers, industry stakeholders, and technology partners to advance connected healthcare.
